LETTER OF ACQUISITION

Conference Record # 56067

22-Mar-2022

Thank you for completing the IEEE Conference Publication Form for 2022 5th International Conference on Advanced Communication Technologies and Networking (CommNet). We are pleased to inform you that your publication is eligible for inclusion in the IEEE Conference Publication Program (CPP). The CPP exclusively handles the worldwide post-conference sales and distribution of IEEE-related conference publications to individuals (including IEEE members) and institutions (including libraries), via channels such as IEEE Xplore®. The IEEE Online Conference Publication page is available to assist Organizers with issues related to conference proceedings:

https://www.ieee.org/conferences/organizers/pubs/conference-publications.html

Please be advised that this Letter of Acquisition does not represent a commitment by IEEE to publish the proceedings of the identified conference. All conferences and conference proceedings must meet IEEE's quality standards and **IEEE reserves the right not to publish any proceedings that do not meet these standards.**

TITLING CONSISTENCY INFORMATION

For the purpose of consistency, the title 2022 5th International Conference on Advanced Communication Technologies and Networking (CommNet) _must_ be used on this conference proceedings. Consistency is required to ensure that end-users can readily identify, access and cite your content. Please use the same sequence of words on the _cover, title page, copyright page_ (reverse side of the title page), and, if applicable, _the spine_. (Subtitles may be used to customize titles so they are more recognizable. However, they must be placed _after_ the full official title as it appears above). This will fulfill the need for accurate cataloging data that can be easily employed in computerized information and retrieval systems.

Conference Organizers will continue to contact the [IPR Office](#) for all copyright needs and questions. [MCE](#) can support any question regarding the initial eCF site registration form and packing list creation. Please visit the following URL to learn more about copyright transfer for your conference.
https://www.ieee.org/publications/rights/copyright-main.html

In order to avoid the loss of copyright by IEEE for your publication, the following copyright must appear either on the copyright page for print proceedings or on the first page viewed when the CD-ROM, DVD or USB drive is accessed.

All conference papers will be marked with the following information in the left hand margin of the first page:

- Conference Name

- IEEE Copyright Clearance Code

This effort supports the IEEE author community by enhancing indexing and discoverability of IEEE papers.

Organizers should submit their papers, without markings to IEEE. The Publishing Operations team will add the metadata to the papers before posting to IEEE Xplore®.

Copyright details are included below for your reference. If the conference chooses to stamp the papers this will be in addition to the markings provided by the IEEE Publishing Operations team:

- For papers in which all authors are employed by the US government, the copyright notice is: **U.S. Government work not protected by U.S. copyright**
- For papers in which all authors are employed by a Crown government (UK, Canada, and Australia), the copyright notice is: **978-1-6654-5054-6/22/$31.00 ©2022 Crown**

INDEXING & ABSTRACTING

The CPP assures wide distribution of conference proceedings by providing abstracting and indexing of all individual conference papers for inclusion in worldwide databases. The CPP makes every reasonable attempt to ensure that abstracts and index entries of content accepted into the program are included in databases provided by independent abstracting and indexing (A&I) services. Each A&I partner makes its own editorial decision on what content it will index. IEEE cannot guarantee entries are included in any particular database.
